Rations Condemned-The New Sewer System-Briefs.

RT NEWS, VA., August 9. (Special.)-It is very likely that Colonel James Hamilton Lewis, Congressman from the State of Washington, who was detailed here for duty as an inspector, will be sent away from Newport News. It is probable that he will be ordered to Manassas or some other point where troops are encamped.

General Grant, and very probably the War Department, is said to have a report er Mr. Lewis's signature, condemning unfit for use 10,000 pounds of beef and mantity of canned goods now in the ble source, and it is expected that the developments of the next few hours show that Colonel Lewis is persona the ladder, all on account of his deter-mination to be no party to the poisoning of troops by compelling them to partake

Evidently, Wednesday is the day selected for the departure of these ships. Whether or not they will go out to-morrow is a matter for conjecture. Navy Department so frequently revokes orders that seem to be final that it is impossible to predict with certainty the departure of any of the warships.

The officers under a commander on a ship are not supposed to know the nature of the orders the department con-templates issuing for their vessel, but very frequently they know which way the wind blows. An officer from one of the ships in these waters stated to the Dispatch correspondent that all outward indications point to a junction of the Minneapolis, Yosemite, the colliers, and probably the Dolphin, with Admiral Sampson at some appointed rendezvous, The move of the squadron after that, of course, can only be surmised.

MORS OF SPAIN'S REPLY. COMPLICATIONS

FEARED.

United States' proposals was of such a character that it might endanger the whole negotiations for peace, by its fallure to return straightforward answers was effective in depressing securities all over the world. This effect was especially marked, inasmuch as values have recently improved sharply on the prospect that peace would soon be declared. Holders of stocks were, therefore, inclined to take profits, in view of the less favorable outlook. This was true of Spanish bonds, which fell, both in Paris and London. It could hardly be said, however, of United States bonds which, nevertheless, showed some depression. American railroad securities declined in London and in Europe, and there was selling in New York for foreign account. Offerings here on the decline were very large, but there was evident, a very remarkable power of absorption, which held prices, with a few exceptions, almost perfectly steady through some of the most active periods of the trading. Recent leaders suffered quite severely, and in this list are included, especially, Burlington, St. Paul, Rock Island, Brooklyn Rapid Transit, Sugar, and the Rubber stocks,

Yesterday's profit-taking followed by to-day's selling caused renewed fears among traders that the large dealers were selling out. The bears were active, but nervous, all day, and their covering induced numerous rallies. There were several individual stocks which showed sufficient strength to exercise a sustaining influence, among them being Ele-vated, Cincinnati, Chicago and St. Louis, Chesapeake and Ohio, Leather, and People's Gas, with the latter rising an extreme three points, but reacting on the day's final profit-taking. Prices at one time railied nearly to last night's close, and in a few cases above, but the bulk of the trading was at a lower level.

Dealings in bonds were on a considerably reduced scale, and prices were more firmly field than in the stock market. Total sales, \$3,550,000. United States new 4's declined 1-4, and

THE COTTON MARKETS. Va.-Carolina Chemical pref. 100 10734 Va.-Carolina Chemical com. 100 5844

NEW YORK, August 9.—There was a narrow but generally firm market for cotton to-day. The higher ruling of spot cotton to-day. The higher ruling of spot cotton at Liverpool, the wet weather in the Mississippi and in the Atlantic States, and the more or less generally uncertain character of crop accounts, led to some covering, on which our market sdvanced 2644 points; after which there was a partial recession, as outside speculation failed to give any support. Again the market turned firmer on official weather forecasts and on misgivings regarding the character of the bureau monthly report to be issued to-morrow. The market closed steady at a net gain of 264 points. Cotton futures opened weak; August, 15,99; September, 25,99; October, 35,95; November, 55,97; December, 86,01; January, 86,05; February, 36,08; March, 36,11; April, 36,14; May, 36,17.

Futures closed steady; August, 35,99; February, 36,09; March, 36,12; April, 36,19; May, 36,18.

Spot closed steady at a 11-16e, advancet middling uplands, 61-8c.; middling Guif.

tions for the city of Richmond, Va., to-day were: Tobacco, \$700.20; cigars, \$3,404.76.

10tal, \$4.194.96. Merchants' and Planters', Scabrook's, and Shockoo warehouses report to-day: Receipts, 43 hogsheads; deliveries, 14 Receipts, 43 hogsheads; deliveres, hogsheads.

A meeting of the Trade was held this and resolutions of regret at the morning, and resolutions of regret at the death of Mr. I. N. Vaughan, and of respect to his memory, were passed. The opinion is universal that in the death of Mr. Vaughan the Richmond Trade has lost a most valuable member.
